Phoenix-based itSynergy Acquires Arizona Technology Consulting Practice of Virtual Staffing Inc.

IT Infrastructure Company Acquiring & Expanding in Phoenix

PHOENIX— March 12, 2008 —Phoenix-based itSynergy is pleased to announce the acquisition of the Arizona Technology Consulting Practice of Virtual Staffing Inc. (VSI), an Information Technology Company serving small and medium size businesses. “We are in the process of meeting with and carefully transitioning each VSI client into the itSynergy family,” announced itSynergy President Michael Cocanower. “We are very excited to introduce these new customers to the breadth of our services which will offer them new opportunities they have not had access to in the past. We live by our corporate motto of ‘*First Time. Every Time.*’ and have built a process to ensure that each client, both new and existing, experiences our services always delivered 100% reliably the first time,” added Cocanower.

itSynergy was founded in 1997 and has maintained steady growth over the past ten years as the company has expanded to serve a variety of companies and professional services in the small and medium size market. The company attributes their growth to several factors including the “*First Time. Every Time.*” commitment, a loyal and diverse group of clients, top-level professionals with the highest credentials in the IT industry and an unrelenting focus on client service. “We feel fortunate to have thrived with the ability to enhance our services to our clients over the past ten years in spite of a couple of economic downturns,” stated Cocanower. The company provides both IT Infrastructure Services and delivers Custom Application Development to their clients.

As a result of the acquisition and planned staff growth, itSynergy also recently signed a new five year lease in their existing office building which will more than double existing office space. The new space plan will enable itSynergy to better organize employees around their respective teams and practice areas. This reorganization will allow itSynergy to continue to enhance internal processes and increase collaboration among team members and between teams.

An open house was held on Thursday, March 6th at the itSynergy corporate headquarters to welcome new clients to itSynergy and celebrate the opportunity to serve the former VSI clients. The event was well attended and there was significant buzz about the expanded service offering now available through itSynergy to the former VSI clients.
